Iran International Exhibitions Co.

Tehran International Fair

Fair Background

The establishment of Iran International Exhibitions Company dates back to 1959 and after the allocation of exhibition lands in the current location in 1967, the construction of exhibition and office halls began. In 1969, the first international exhibition in this place called the Asian Exhibition was held for 21 days with the participation of 33 countries. After that, the process of holding exhibitions was properly developed and the city of Tehran was introduced to the world as one of the most beautiful exhibition centers in the world. In 1976, Iran International Exhibitions Company became a member of the UFI International Exhibitions Union and the World Exhibitions Association (BIE), which is responsible for holding expo exhibitions in the world.

Route	21.000 m ²

About Iran Glass Show

The 6th International Exhibition of Glass, Machinery & Equipment and Related industries with the aim of creating an environment for brands, products, technological advances, face- to- face interaction and services. The exhibition created an exclusive opportunity for local and international companies to obtain general and specialized information on the Iranian market. During this international exhibition, the participants were able to interact with international or local parties in pre-planned and targeted meetings, exchange ideas and experiences and examine the possibility of future cooperation. The creation of this suitable platform in the exhibition with the presence of decision makers of the Iranian markets leads to the formation of valuable relationships and the achievement of maximum efficiency and lays the ground work for the most complete economic development and prosperity in the domestic space and international relations of Iranian industries.
